Local Hospital receives Donation from Local Manufacturer

Cambridge, ON. -- (September 2009) – www.mediamounts.com – “Donations have decreased this past year” notes Ingrid Towne, Executive Director of Cambridge Memorial Hospital Foundation, “but now is the time that the hospital needs community support the most.”

Mediamounts Ltd, a local manufacturer of computer wall mounted solutions, which hold LCD monitors and keyboards, decided that they would do their part to support the hospital by donating a FLUID™ wall mounted workstation to the hospital.

The decision to donate the FLUID™ wall mounted workstation was an easy one to make. The flexibility of the arm, which provides 270° of lateral movement, 55” of reach from the wall and stores to a compact 7”, is an extremely versatile wall mount that can be used in every room in the hospital.

Cambridge Memorial Hospital installed the FLUID™ arm on the existing Anesthesia Board in OR Room #3, where it holds a 15” flat panel monitor. Approximately 1,395 cataract surgeries are performed each year at the hospital.

The monitor was originally located on a floor mount, but with it raised off the floor, the staff has enjoyed increased efficiency and ergonomics in their OR theatre.

The staff at Cambridge Memorial Hospital is extremely pleased with the functionality of the Fluid™ arm and the impact that it has had on the OR 3 in both efficiency and effectiveness. “The arm works very well” commented John Leistra BMET, Biomedical Engineering at Cambridge Memorial Hospital. “Thank you again for your support and this donation to Cambridge Memorial Hospital.”

About Mediamounts Ltd.

Mediamounts manufactures mounting solutions that simplify the deployment and integration of IT technology at critical points of care. With a focus on healthcare, Mediamounts products are safe, configurable and aesthetic, with an antimicrobial finish, delivered fully assembled.

Mediamounts is committed to producing the safest and most versatile mounting solutions in the industry, supported by a reputable group of dealers and integrators nationwide.
